

O.Plan No.	ICT-78
Name of Course	Computer Aided Design & Manufacturing
Objectives	Throughout the life cycle of engineering products, computers have a prominent role. In the process of product design, this role is becoming increasingly important due to competitive pressures. Therefore, the knowledge of fundamentals and various hardware/software tools of CAD for manufacturing are indispensable for a manufacturing technologist.
Course Contents	<ul style="list-style-type: none"> • Computer Aided Design • CAD Software • Geometric Modelling • CAD Database • Manufacturing Applications • Features of some Software Packages
Course Coordinator, email address and phone number	Er. P. S. Rao +91-172-2759617 psrao@nitttrchd.ac.in
