

Brief Contents of STCs 2018-19

Operational Plan Number	RD-14
Name of the Course	NSQF Aligned Courses for CDTP Beneficiaries
Introduction and Objectives of the Course	<p>India is a vast country with a population of approximately 120 crore. 75% of India's population lives in about six lac villages. Majority of them are lesser educated and hardly undergone any technical, professional and vocational training. With the aim to develop technical and professional skills in the unemployed youth of our country a Scheme called Community Development through Polytechnics has been launched by MHRD, GOI in 2009. The main aim of the scheme is to provide technical skills to the unemployed youth mainly SC/ST's, minorities and poor through vocational education by the polytechnic system of our country. Now by taking one step ahead Government of India has launched National Skills Qualifications Framework (NSQF) which is a competency-based framework that organizes all qualifications of vocational education according to a series of levels of knowledge, skills and aptitude. These levels, graded from one to ten, are defined in terms of learning outcomes which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning. NSQF in India was notified on 27th December 2013. All other frameworks, including the NVEQF (National Vocational Educational Qualification Framework) released by the Ministry of HRD, stand superseded by the NSQF.</p> <p>Under NSQF, the learner can acquire the certification for competency needed at any level through formal, non-formal or informal learning. In that sense, the NSQF is a quality assurance framework. Now emphasis is given for clubbing the two initiatives of MHRD, GOI so that trainees can acquire maximum benefit out of it. With the above background this programme has been planned for the teachers of polytechnic of the country.</p>
Course Contents	<ul style="list-style-type: none"> • Overview of the Scheme of CDTP • Advantages and Challenges of the CDTP scheme • Role of NSQF in vocational education • World Scenario for NSQF for employment generation • Innovative and new NSQF aligned programmes • Case Studies and Success Stories.
